California Secretary of State Approves World Wide Notary's Electronic Notary Seal

Vernon, TX—(10/13/2005) **WWNotary, L.L.C.** (Privately Held), the leading provider of electronic notary services, announced that the California Secretary of State (CASOS) has approved **World Wide Notary** to be produce electronic seals. "This approval marks a strategic milestone for **World Wide Notary** to provide e-notarizations and e-closings for various industries in California", said Jason Streit, President of World Wide Notary.

World Wide Notary's e-notarization and e-closings products and service, DigaSign 2005, enables documents to be notarized in secure, environment which exceeds Federal and State regulations (such as E-SIGN and UETA) regarding Internet security, encryption, and use of electronic and digital signatures.

World Wide Notary's DigaSign application is flexible and features a simple interface, which accepts documents needing verification and notarization from any Window's based application. Industries such as government, mortgage, real estate, title, legal, insurance, banking, auto, oil and gas as well as many others will save time and money with this service.

DigaSign utilizes the latest in technology for encryption and security to ensure that documents remain confidential and cannot be altered once posted. **DigaSign's** workflow solution will revolutionize the way e-notarization and e-closing transactions are conducted.

About World Wide Notary:

WWNotary, L.L.C., the leading provider of electronic notary services, is a privately held corporation. Pioneering electronic signatures, as early as 1996, WWNotary's management team has years of experience in the Internet technology industry working with stringent Federal mandates, such as HIPAA, E-SIGN and UETA, regarding security and the use of electronic and digital signatures.
